

TELEMEDICINE

Fast and Convenient Care from The Safety of Home

Many people are hesitant to visit medical offices and facilities during the COVID-19 crisis. VistaNational's telemedicine solution offers a safe, convenient alternative to in-person visits for your employees and helps reduce claims against your group health plans because it's a stand-alone service. This service is free to employees and provides convenient, quality medical care for employees from the safety of their homes. With board-certified physicians in all 50 states*, those in need can obtain diagnosis, treatment and a prescription, if warranted, through the convenience of a telephone and digital communications.

- ⊙ Free Value-Add Service for Your Employees
- ⊙ Safely Access Board Certified Physicians from Home
- ⊙ Little or No Time Missed from Work for Appointments
- ⊙ Reduces Healthcare Costs – Separate from Group Health Plans

*Subject to state regulations
